

The Defector – Available to Pre-Order TODAY!

Hi, I'm Chris Hadfield. Astronaut, space station Commander, best-selling author of the Apollo Murders and I have had some pretty high-octane experiences. I was the top test pilot in the U.S Air Force and the United States Navy, was a Royal Canadian Air Force combat Cold War fighter pilot intercepting Soviet bombers in North American airspace, and that is why I am so excited to announce that I've written a new thriller called The Defector. It is nerve shredding and pulse pounding and it follows the supersonic hunt for a shadowy Soviet defector known as Grief. It's been so much fun to write, and I can't wait to share it with you. The Defector is coming out this October and you can pre-order it online now.
